**LITTLE ITALY
SINGLE UNIT CERTIFICATE**

Herewith certification that the roof trusses, suspended floor and walls was designed according to SANS 517:2013 which is the relevant design code for light steel frame structures in South Africa.

All structural steel frame material supplied by Siteform for roof, floor and wall structures, has been engineered according to the SANS 517:2013 code of practice and all materials used in manufacturing of steel frames do comply with the relevant requirements.

If any alterations or additions are made to the structure after the date of issue of this certificate the certificate will be considered invalid. A new inspection and certificate will be necessary to ensure the validity of the structure.

Mr H Brisley - Registration NO 201170196 will be the responsible engineer.

Please do not hesitate to contact us if any additional information is required.

Yours Faithfully
